

NEW

REV[®] SF385[™]

CRM: 40 **RM: 68**

General Purpose

REV[®] SF385[™] brand is a mid-maturity, high yielding, disease tolerant high-oleic Dupont[®] ExpressSun[™] hybrid.

Management Comments

- This hybrid is well-suited for the birdseed market.
- Planting this hybrid in high yield environments may result in increased plant height.

**DuPont[™]
ExpressSun[®]**
trait

ExpressSun[®] is a registered trademark of DuPont[™]. REV[®] brand sunflower hybrids with the DuPont[™] ExpressSun[®] trait are tolerant to DuPont[™] Express[®] herbicide with TotalSol[®] soluble granules. The ExpressSun[®] trait system helps provide improved weed control compared to conventional hybrids with traditional herbicides. Contact a sale professional for the latest and most complete listing of traits and scores for each Terral and REV[®] brand product.

Observed Suitability Placement Guidelines

Highly Suitable: HS Suitable: S Poor Suitability: X
Insufficient or Inconsistent Observations: (Blank)

X	Heavy Clay Soils	A	High pH-Fe Chlorosis
X	Early Planting/Cold Soils	S	Limited Irrigation
S	High-Yield Environments	X	Sunflower-on-Sunflower
S	High Population		Low Temperature at Flowering
HS	Express Herbicide Application	S	Sclerotinia Prone Environments
X	Poorly Drained Soils	S	Drought Prone Soils
S	Irrigation	S	Dryland
S	No-Till	HS	Low Population
HS	Desiccation for Early Harvest	S	High Rainfall-Grain Mold Prone
HS	Downy Mildew Prone Environments	HS	Phomopsis Prone Environments

Trait Scores

Characteristics: 9= Excellent; 1=Poor; Blank= Insufficient Data
