

REV®17BHR98™ BRAND

Relative Maturity	107
Technology	HX/LL/RR2/YGCB

Recommended End Use		Irrigation	Product Fit
Grain	Y	Dry Land	Y
Silage	N	Furrow	Y
Food	N	Pivot	Y

Hybrid Highlights and Placement Recommendations

- Early MidSouth and Deep South option
- Compact plant type with good ear placement
- Upright leaf structure well suited for twin-row or narrow row applications

Disease Rating

Gray Leaf Spot	5
Northern Leaf Blight	5
Fusarium Ear Rot	4
Anthrachnose Stalk Rot	5
Diplodia Ear Rot	6
Goss's Wilt	5
Stress Emergence	6
Drought Tolerance	7

Plant Characteristics

Ear Flex	6
Plant Height	4
Ear Height	6
Test Weight	5
Husk Coverage	5
Stalks	8
Roots	6
Brittle Snap	4
Staygreen	6

RATINGS: 1 is Poor, 5 is Intermediate, 9 is Excellent, – is Insufficient Data. Plant populations vary by regions.

REV® Brand Corn
YGCB,HXX,LL,RR2 (Optimum® Intraject® Xtra) - Contains the YieldGard® Corn Borer gene and the Herculex XTRA genes for resistance to corn borer and corn rootworm.

RW,YGCB,HXX,LL,RR2 (Optimum® Intraject® XTreme) - Contains the Agrisure® RW trait, the YieldGard Corn Borer gene, and the Herculex® XTRA genes for resistance to corn borer and corn rootworm. Optimum Intraject XTreme will be the major component of Optimum AcreMax XTreme.

AVBL, YGCB, HX1, LL, RR2 (Optimum® Leptra®) - Contains the Agrisure Viptera® trait, the YieldGard® Corn Borer gene, the Herculex® I gene, the LibertyLink® gene and the Roundup Ready® Corn 2 trait.

®YieldGard, the YieldGard Corn Borer Design and Roundup Ready are registered trademarks used under license from Monsanto Company. Liberty®, LibertyLink® and the Water Droplet Design are trademarks of Bayer. Herculex® Insect Protection technology by Dow AgroSciences and Pioneer Hi-Bred. ®Herculex and the HX logo are registered trade-marks of Dow AgroSciences, LLC. Agrisure® and Agrisure Viptera® are registered trademarks of, and used under license from, a Syngenta Group Company. Agrisure® technology incorporated into these seeds is commercialized under a license from Syngenta Crop Protection AG.

Product performance in water-limited environments is variable and depends on many factors such as the severity and timing of moisture deficiency, heat stress, soil type, management practices and environmental stress as well as disease and pest pressures. All hybrids may exhibit reduced yield under water and heat stress. Individual results may vary.
